

Graduate Student Mentor Selection Form

STUDENT'S NAME	
UFID	STUDENT'S SIGNATURE

I accept this student in my research group and will serve as the student's dissertation committee chair and mentor.

I understand that the average time to graduation for PhD students in the Genetics and Genomics Program is 5.2 years. I am prepared to provide support (intellectual, professional, and financial) to the student until s/he graduates. Financial support can be in the form of research assistantships, teaching assistantships, or assistance in applying for support. Stipend level will be comparable to other students in my research group and my department. The current G&G stipend is \$31,000.

FACULTY EMAIL	FACULTY TELEPHONE

If the mentor is unable to provide financial support of the student, fiscal responsibility falls to the department/college of the faculty member's primary department and/or college. Lack of funding cannot be used as a reason for terminating a student or encouraging graduation before appropriate training and competency have been achieved.
